Release of Justified Trust and Key Taxpayer Engagement Workshop Outcomes Document

The Corporate Tax Association (CTA) is pleased to announce the release of its shared outcomes document on the CTA/Australian Taxation Office (ATO) workshops on Justified Trust and Key Taxpayer Engagement (KTE).

Our joint release message with the ATO can be accessed [here](#).

The release of the shared document represents the culmination of the questions raised prior to and during the seven joint CTA/ATO workshops on the Justified Trust and KTE initiatives. These workshops were attended by 172 CTA members representing more than 100 large corporates and about 300 ATO staff. The shared outcomes document can be accessed [here](#).

We are proud to have jointly developed a practical document that provides clarity around the ATO's implementation of the Justified Trust and KTE initiatives. The sharing of this document between ATO staff, CTA members and other large corporate taxpayers should ensure a greater degree of consistency and certainty for those implementing these new initiatives.

The CTA looks forward to continuing to work with the ATO on these initiatives in 2018 and beyond.
